**DETAILED ACTION**

***Claim Rejections - 35 USC § 103***

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
2. Claims 1-25 are rejected under 35 U.S.C. 103(a) as being unpatentable over Kitahara et al. 6,303,686, in view of Malhotra et al. 4,837,267 or Morgan et al. 4,837,267, further in view of Ilardo et al. 4,504,611 or Hochberg et al. 4,564,650, with Kubo et al. 2003/0109646 submitted as evidence.

***Response to Arguments***

3. Applicant's arguments filed 2/23/06 have been fully considered but they are not persuasive. Applicants' argument is directed to the fact that none of the primary, secondary or tertiary references cited mentions lowering the melt viscosity of the polyamide by the addition of the polytetrafluoroethylene and therefore no motivation to combine exists. This is unpersuasive because it is not a requirement for finding of obviousness that the motivation of ordinary skill in the art be the same as applicants' for making the composition. In re Kemps, 40 USPQ2d 1309, 1311 (Fed. Cir. 1996). Furthermore, Kubo et al. disclose engineering plastic and fluorine containing polymer in claim 1, polyamide in claim 5, core-shell PTFE in paragraph 0022, emulsion polymerization and chain transfer agents in paragraphs 0049-0050, glass fibers in paragraph 0065 and the effect of adding the fluoropolymer to the engineering plastic in Table 1. The drop in extrusion torque and extrusion pressure and the increase of

extrusion speed are all indicative of reduced melt viscosity. Accordingly, applicants' results are not unexpected. The rejection is maintained.

***Conclusion***

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
